ULTRA CONFIDENTIAL DOCUMENTS

Dear Presidents and Prime Ministers of China, United States of America, Russia, Japan, United Kingdom, and expert advisers,

The purpose of this ultra-confidential letter is to bring to your attention the truth about the scandals of fraudulent and forced vaccinations, which must be considered "crimes against humanity", so that you can put an end to them, as quickly as possible, thanks to your very high responsibilities as Heads of state.

The actors of the New World Order, such as [Bill Gates](#) and his allies - at the forefront of which are [President Emmanuel Macron](#) and his government, the Pasteur Institute (as part of Sanofi), the 4 pharmaceutical vaccine makers (Sanofi, GSK, Pfizer, and MSD), with the complicity of most health agencies (WHO, FDA, CDC, IOM, NIH, Health part of DHHS, french ANSM, EMEA, etc.), Google, Facebook, Tesla, and many corrupt experts - **plan to reduce and control the world's population, seeking to impose dangerous and deadly vaccines**, the known toxicity of which is deliberately hidden. There are

- **Covid-19 vaccine**, which has already been produced by the Institut Pasteur from Covid-19. Recently a group of Indian researchers has just analyzed the genome of Covid-19, and demonstrated, without any doubt, that **Covid-19, responsible for the current pandemic, is the result of genetic manipulation of the coronavirus Sars-CoV-2**. This has been confirmed by 2 Nobel Prize winners: the French Professor Luc Montagnier and the Japanese Professor Tasuku Honjo, and also by the Russian Professor Peter Chumakov. This modification of the Sars-CoV-2 coronavirus was carried out by French researchers at the Institut Pasteur, in France, without the knowledge of researchers and the Chinese government. This shows that the Chinese government did not lie when it said that the Covid-19 escaped from Wuhan's laboratory is not a Chinese virus. These revelations are the subject of **File 1**;

- **Vaccines that contain Aluminum and Thimerosal in highly toxic doses, promulgated by the health authorities (FDA, WHO)**, but of which the latter and the vaccine makers have lost their memory. This file that I recently communicated to Robert F. Kennedy Jr, constitutes **File 2**.

Having read files 1 and 2, which contain indisputable evidence of the "greatest scandal in the history of mankind", and after consulting with each other, I ask you, on behalf of men around the world, to put an end to this « organized global criminal cataclysm ».

It is imperative to act now. Men around the world will be very grateful to you

Addendum

Before reading Files 1 and 2, allow me to introduce myself. My name is Jean-Bernard FOURTILLAN. I live in Poitiers, in the Center region of France. Chemical engineer and pharmacist by training, I have taught medicinal chemistry and pharmacokinetics as a professor at the University of Poitiers School of Medicine and Pharmacy from 1972 to 2008 (see my Curriculum Vitae, in File 2). In addition, I was hospital pharmacist, and created, in 1981, with my wife Marianne, pharmacist, the company CEMAF. A private Biomedical Research Center equipped with a clinical centre (24 beds) and a bioanalysis laboratory, CEMAF was a Phase I center, approved by Health Agencies around the world, which carried out pharmacokinetics and tolerance studies for new drugs when they were first administered to humans on behalf of pharmaceutical laboratories.

It is in this private Biomedical Research Center that I was able to identify, from 1994, the Sleep-Wake System which regulates totally, according to a circadian rhythm, the functioning of the organism. It is made up of 2 hormones, secreted by the pineal gland overnight, together with the Melatonin: Valentonine, the real sleep and nighttime hormone, which I discovered in 1994, and 6-Methoxy-Harmalan, the vigilance and daytime hormone. This is a significant scientific advance in the history of medicine, considering innumerable therapeutic applications in the form of patches that deliver these two hormones transdermally, that I developed as part of a non-profit endowment Fund, the Josefa Fund (see my discovery and its therapeutic applications on the Fonds-Josefa.org website). They make it possible to effectively treat, with spectacular results, neurological diseases, such as: Sleep disorders, nervous breakdown, Parkinson's disease, Multiple sclerosis, Charcot's disease, Alzheimer's disease, epilepsy, probably autism, and many other neurological disorders.
