Doctor Christian Tal Schaller
Doctor Serge Rader
Didier Rochard
Frédéric Chaumont

March 20, 2021

Financial scam investigation organized by the New World Order in the false Covid-19 health crisis

Frédéric

Document 1

Since August 20, 2020, with our 25 Jasper Mader and Agora TV videos, we have denounced, with all the irrefutable evidence, **the following facts:**

First: The Covid-19 virus is artificial. It was manufactured in France by the Institut Pasteur.

Second: The manufacture of this artificial Covid-19 virus is protected by 5 patents filed by the Institut Pasteur:

- **3 patents for the protection of the artificial virus Sars-CoV2**, filed between 2004 and 2010, with priority from December 2, 2003:
 - 1 European patent, [EP1694829 B1](#), filed in 2004
 - 2 American patents, [US 012.8224 A1](#) & [US 8,243,718 B2](#), filed in 2010
- **2 patents protecting the artificial virus Covid-19**, which protect the integration of HIV1, the AIDS virus, into the Sars-CoV2 genome. They were filed in 2005 and 2015, with priority as of October 11, 2000:
 - 1 American patent, [US 8,093,042 B2](#), filed in 2005
 - 1 American patent, [US 10,407,695 B2](#), filed in 2015

Third: A US patent, [US 0279 585 A1](#), protecting COVID-19 tests, which can detect COVID-19 disease. This patent was filed, as a priority, by Richard Rothschild, on October 13, 2015.

The filing date of this patent proves that **the Covid-19 virus was manufactured by the Institut Pasteur before 2015**

At this stage, the identification of the tool of the false pandemic, the artificial virus Covid-19, and its place of manufacture, the Pasteur Institute, in France, are a fatal discovery, for the organizers of the biggest crime against humanity never committed.

The people have all the elements to wake up and revolt, saying to their executioners:

**The Covid-19 virus being artificial,
there is no more need for the vaccine.
The Institut Pasteur just needs to stop releasing the Covid-19
to stop the pandemic**

Fourth: Finally we have shown that, if it had been necessary to manufacture vaccines against the Covid-19 virus, In case it was a natural virus, only one vaccine was developed, the ChAdOx1 nCoV-19 vaccine, manufactured by Astra Zeneca.

It is the result of a collaboration between the Institut Pasteur, which supplied the Covid-19 virus, and Astra Zeneca, which supplied the ChAdOx1 Chimpanzee Adenovirus.

All other vaccines, especially the unthinkable messenger RNA vaccines from Moderna and BioNTech, are decoys.

Document 1

Since August 20, 2020, the Jasper Mader videos denounced, with all irrefutable evidence, **the following facts:**

- 1-** The Covid-19 virus is artificial. It was made in France by the Institut Pasteur.
- 2-** The manufacture of this artificial Covid-19 virus is protected by 5 patents filed by the Institut Pasteur:
 - **3 patents for the protection of the artificial virus Sars-CoV2**, filed between 2004 and 2010, with priority on December 2, 2003:
 - 1 European patent [EP1694829 B1](#)
 - 2 American patents: [US 012.8224 A1](#), and [US 8,243,718 B2](#).
 - **2 patents protecting the artificial Covid-19 virus**, which protect the integration of the HIV1 virus, the AIDS virus, into the Sars-CoV2 genome. They were filed in 2005 and 2015, with priority as of October 11, 2000:
 - 1 American patent [US 8,093,042 B2](#), filed in 2005
 - 1 American patent. [US 10,407,695 B2](#), filed in 2015
- 3-** **1 American patent [US 0279 585 A1](#), for the protection of tests COVID-19**, which can detect COVID-19 disease, filed as a priority, by Richard Rothschild, October 13, 2015. The filing date of this patent proves that **the Covid-19 virus was manufactured by the Institut Pasteur before 2015**

**The Covid-19 virus being artificial,
there is no more need for a vaccine
The Institut Pasteur just has to stop letting go
to stop the pandemic**

- 4-** Finally, we have shown that, if it had been necessary to manufacture vaccines against the Covid-19 virus, In case it was a natural virus, only one vaccine was developed, the **ChAdOx1 nCoV-19 vaccine, manufactured by Astra Zeneca**. It is the result of a collaboration between the Institut Pasteur, which supplied the Covid-19 virus, and Astra Zeneca, which supplied the Chimpanzee Adenovirus ChAdOx1. All other vaccines, especially the unthinkable messenger RNA vaccines from Moderna and BioNTech, are decoys.

With our conspiratorial « Mousquetaires » friends, all we needed was to understand the financial aspect of this gigantic health scam, to complete our investigation.

This is the subject of this 26th video, which we will discuss with Professor Jean-Bernard Fourtillan,

Jean-Bernard, I give you the floor!

Jean-Bernard

Hello Frédéric, Hello everyone!

In this video, we're going to explain how the leaders of the New World Order, and their accomplices, such as banks, pharmaceuticals and biotech companies, are getting rich off our backs in a scandalous way.

We were able to identify the roles and sources of financial profits of the various stakeholders, which are:

- on the one hand, Pharmaceutical Laboratories, sellers of vaccines.

See Document 2

I have identified 6:

Sanofi (of which the Institut Pasteur is a 100% subsidiary):

Astra Zeneca (of which the University of Oxford is a 100% subsidiary),

Pfizer

GSK

Merck

Johnson & Johnson

Document 2

Pharmaceutical Laboratories Vaccines sellers

Sanofi

(Sanofi-Pasteur)

Astra Zeneca

Pfizer

GSK

Merck

Johnson & Johnson

See **Document 3**

- on the other hand, the 160 biotechnology companies, including:

Moderna

BioNTech

Inovio

Novavax

.....

Qsp 160

whose list was compiled by the Director General of the NIH, the infamous Doctor Anthony Fauci.

Document 3

**160 biotechnology companies
theoretically engaged in the
development of vaccines against Covid-19**

Moderna

BioNTech

Inovio

Novavax

.....

Qsp 160

Frédéric

Jean-Bernard, where can we consult this list drawn up by Doctor Anthony Fauci?

Jean-Bernard

See **Document 4**

This list can be viewed on our [Vérité-Covid19.fr](https://verite-covid19.fr) website, on pages 62 to 68 of our report entitled:

"The Whole Truth About Covid-19 and Anti-Covid-19 Vaccines"

whose title is highlighted in yellow

See **Document 5**

This is the 1st page of this list

We find :

University Oxford / Astra Zeneca, who developed the ChAdOx1 nCoV-19 vaccine

Moderna, who claims to have developed the messenger RNA vaccine

Inovio Pharmaceuticals

Novavax

BioNTech / Pfizer, which also claims to have developed the same messenger RNA vaccine as Moderna

It is interesting to note that these 2 biotechnology companies, German for **BioNTech**, and American for **Moderna**, both work in **Cambridge, USA**

Frédéric

Jean-Bernard,
How did you manage to understand their financial package?

Jean-Bernard

The spark that lit me up is the result of Sanofi's fiscal year 2020, publicly declared, and published on February 5, 2021, by numerous media

By Atlantico, under the title:

Net profit up for Sanofi, which expects to pay a dividend of 4 billion to its shareholders

See **Document 7**

The title specifies that Sanofi will pay a dividend of 4 billion euros to its shareholders, while at the same time, Sanofi will lay off 4,000 people over the next 4 years

- By **France Info with AFP**, under the title:

Net profit for fiscal year 2020 up 340% compared to fiscal year 2019 for Sanofi-Pasteur

See **Document 8**

In this article, we learn that the profit for the financial year 2020 amounted to 12.3 billion euros, and that it is up 340% compared to the financial year 2019.

Document 7

Net profit up for Sanofi-Pasteur who thinks pay a dividend of 4 billion to its shareholders**Bénéfice net en hausse pour Sanofi-Pasteur qui pense verser un dividende de 4 milliards à ses actionnaires**
(Sources Atlantico)

Publié le 5 Février 2021

**Bénéfice net en hausse pour Sanofi qui pense verser un dividende de 4 milliards à ses actionnaires**

Le laboratoire prévoit 1.000 suppressions d'emplois en France sur trois ans.

avec Atlantico Rédaction

👁 LECTURE ZEN

Très critiqué pour son retard en matière de vaccin anti-Coronavirus, le géant pharmaceutique français Sanofi va proposer un dividende en hausse après avoir publié vendredi 5 février un bénéfice net en très forte progression en 2020, dopé par la vente de ses actions Regeneron [écrit France Info](#)

Ce dividende devrait être porté à 3,20 euros, selon les syndicats, et représenterait un versement de plus de 4 milliards d'euros à ses actionnaires.

"Sanofi n'est pas le seul laboratoire sur le territoire français à alléger ses équipes en recherche et développement", [analysait récemment](#) sur franceinfo Frédéric Bizard, professeur d'économie à l'ESCP Business School. "La recherche se fait souvent à l'extérieur dans des sociétés de biotechnologies, avec des licences qui sont achetées."

Document 8

Net profit for fiscal year 2020 up 340% compared to 2019 for Sanofi-Pasteur

Bénéfice net de l'exercice 2020 en hausse de 340 % par rapport à l'exercice 2019 pour Sanofi-Pasteur

Source France Info avec AFP

Du 5 Février 2021

Sanofi propose un dividende en hausse à ses actionnaires après une envolée de son bénéfice net annuel

Le bénéfice net du groupe a progressé de près de 340% en un an.

Publié le 05/02/2021 08:36 Mis à jour le 05/02/2021 11:59

Temps de lecture : 1 min.

Le site de recherche et développement de Sanofi à Vitry-sur-Seine (Val-de-Marne), le 19 janvier 2021. (MICHEL STOUPAK / NURPHOTO / AFP)

Le géant pharmaceutique français Sanofi va proposer un dividende en hausse après avoir publié, vendredi 5 février, un bénéfice net en très forte progression en 2020, dopé par la vente de ses actions Regeneron. Ce dividende sera porté à 3,20 euros par action détenue (contre 3,15 pour l'exercice précédent), selon les syndicats, et représentera un versement de plus de 4 milliards d'euros à ses actionnaires.

Dans le détail, le bénéfice net du laboratoire a atteint 12,3 milliards d'euros contre 2,8 milliards un an auparavant, soit une progression de près de 340%. Celle-ci inclut une importante plus-value de plus de 7 milliards d'euros générée par la vente d'une grande partie de ses actions Regeneron, une biotech américaine qui développe des anticorps de synthèse, notamment utilisés pour traiter le Covid-19.

Cette annonce intervient alors que le groupe est sous le feu des critiques après le retard pris dans le développement de son vaccin anti-Covid et ses suppressions d'emplois dans la recherche (400 postes en France). "Sanofi n'est pas le seul laboratoire sur le territoire français à alléger ses équipes en recherche et développement", analysait récemment sur franceinfo Frédéric Bizard, professeur d'économie à l'ESCP Business School. "La recherche se fait souvent à l'extérieur, dans des sociétés de biotechnologies, avec des licences qui sont achetées."

Frédéric

Jean-Bernard, what comments can we make in the face of such powerful results, given the current economic crisis?

Jean-Bernard

First of all, it is surprising and abnormal, that during the year 2020, during which the economies of companies were very seriously affected by the anti-economic measures taken by the governments of Western countries, under the pretext of the crisis health generated by the Covid-19 virus, international companies the size of Pharmaceutical Laboratories or biotechnology companies are recording such spectacular increases in 2020 compared to 2019.

Here are some examples :

See **Document 9**

Thus, an international company of Sanofi's size saw its profit increase by 340%, **from 2.8 billion euros for the 2019 financial year**, a year of undisturbed economic activity, **to 12.3 billion euros for year 2020**.

Equally surprising results for biotech companies, such as **Moderna, whose market value in 2020 climbed to \$ 30 billion, which is a 250% increase from 2019**

Same results for 2 other biotechnology companies, **Inovio and BioNTech**, with **respective increases in their stock market valuations of 350% for Inovio, and 103% for BioNTech, in 2020 compared to 2019**.

Document 9

Rise in profits in 2020 for pharmaceutical laboratories and biotechnology companies

Sanofi

Profit for the 2019 financial year: 2.8 billion euros

Profit for fiscal year 2020: 12.3 billion euros

That is a 340% increase in profits in 2020/2019

Moderna

Stock market valuation in 2020: \$ 30 billion

Stock market valuation in 2019: \$ 12 billion

250% increase in stock market valuation in 2020/2019

Inovio

350% increase in stock market valuation in 2020/2019

BioNTech

103% increase in stock market valuation in 2020/2019

Frédéric

Jean-Bernard, how can we explain the origin of this incredible financial windfall for each of the stakeholders?

Jean-Bernard

We can divide the sources and beneficiaries of these enormous financial profits, generated by the manufacture of anti-Covid-19 vaccines, into 3 parts:

See Document 10

First Part - The amounts of the sums paid, at the start of 2020, by 5 pharmaceutical laboratories, vaccine sellers, to Sanofi-Pasteur, upon signing of the licensing contracts of the 5 Covid-19 patents filed by the Pastor Institute.

As we have seen previously, the Covid-19 virus is artificial, and protected by 5 patents from the Institut Pasteur. It is therefore not possible to manufacture a vaccine against Covid-19 without going through the Institut Pasteur, which manufactures it, and supplies it to vaccine manufacturers for a fee.

Since the Institut Pasteur is a wholly-owned subsidiary of Sanofi, the Sanofi Pharmaceuticals laboratory, although it sells vaccines, does not have to pay the cost of the licensing that must be paid by the 5 other pharmaceutical laboratories selling vaccines: Astra Zeneca, Pfizer, GSK, Merck, and Johnson & Johnson

I estimate at a minimum of 3 billion euros, the amount paid to Sanofi-Pasteur by each of the 5 pharmaceutical laboratories that will market the same ChAdOx1 nCov-19 vaccine, sold under different names.

Frédéric

Jean-Bernard, can this 1st source of income for Sanofi in 2020 explain, for Sanofi, the spectacular 340% increase in net profit for fiscal year 2020, compared to fiscal year 2019?

Jean-Bernard

Without a doubt ! At least in part, since, **during the first half of 2020, Sanofi-Pasteur received, at a minimum, a sum of 5 x 3 billion € = 15 billion €**, from the 5 other pharmaceutical companies selling vaccines.

Unfortunately for them, and fortunately for us, the 6 pharmaceutical companies will not be able to conceal these operations, because they appear in their accounts.

Frédéric

Jean-Bernard, can you tell us who are the other beneficiaries of this financial scam and the fraudulent means by which they got rich?

Jean-Bernard

See **Document 10**

We will look at the many biotechnology companies, such as Moderna, BioNTech, Inovio, and Novavax, which have not developed any vaccines. These companies did nothing, and the antigen of their vaccines is none other than ChAdOx1 nCoV-19, the result of a collaboration between Astra Zeneca and Sanofi-Pasteur.

This is an incredible financial scam, organized by Bill Gates and his accomplices. As we have seen previously, Moderna's stock market value in 2020 climbed to \$ 30 billion.

This means that **the financial profits of these biotechnology companies are over 120 billion in 2020 for the 4 companies Moderna, Inovio, BioNTech and Novavax**

And that without doing anything !,

since the famous messenger RNA vaccines cannot exist, as we said in our 24 th Jasper Mader video entitled: "How to save the vaccinated people"

This is how Bill Gates became immensely richer, as he is a majority shareholder in 7 biotech companies, according to him.

Frédéric

Jean-Bernard, you told us previously that there were other sources of income generated by the manufacture of vaccines which are the subject of Part 3 of your presentation. Can you tell us about it!

Jean-Bernard

See Document 10

Indeed, the 3rd source of income corresponds, for the 6 pharmaceutical companies selling vaccines: Sanofi, Astra Zeneca, Pfizer, GSK, Merck, and Johnson & Johnson, to the **sales of the various vaccines to the governments of most countries in the world. and the European Union.**

Thus, we know that the European Union has bought, for a price greater than 15 billion euros:

- 600 million doses of the Pfizer vaccine,
- 400 million doses of Astra Zeneca Vaccine,

And given the number of European Union nationals, around 400 million, it is easy to calculate that the sale of vaccines to 7.5 billion people around the world will bring in, at least, 20 times 15 billion euros , or **more than 300 billion euros, which will be shared by 6 pharmaceutical companies. This corresponds to 50 billion euros per laboratory**, an amount much higher than the annual turnover of these 6 laboratories.

Document 10

Sources and beneficiaries of financial products generated by the manufacture of vaccines

Sanofi-Pasteur

Payment of large sums at signature of licensing contracts for 5 patents from the Institut Pasteur, that protect the manufacture of Covid-19, by 5 pharmaceutical laboratories selling vaccines: Astra Zeneca, Pfizer, GSK, Merck, and Johnson & Johnson

Minimum cost of 3 billion euros for each laboratory

That means 15 billion euros, collected by Sanofi-Pasteur in 2020

Biotechnology companies

Moderna, BioNTech, Inovio, Novavax

Profits generated by stock market valuations that can be estimated in 2020 at \$ 30 billion, for each of these companies

That means \$ 120 billion in profits for these 4 companies

Pharmaceutical laboratories selling vaccines

Sanofi, Astra Zeneca, Pfizer, GSK, Merck, et Johnson & Johnson

Sales of the various vaccines to the governments of most countries of the world and to the European Union.

The European Union has bought vaccines for its 400 million nationals, for more than 15 billion euros.

We can deduce that in order to vaccinate the world population, we must pay these 6 laboratories around 300 billion euros or dollars

That means \$ 300 billion in cash flow, that is to say 50 billion in revenue for each laboratory (which is significantly higher than their turnover)

Frédéric

Ultimately, a "very juicy business", to use the title of our 25th video Jasper Mader of February 13, 2021, of more than 500 billion euros or dollars collected over the years 2020 and 2021, as you have just shown previously.

Jean-Bernard

In total, as we have just seen, by triggering a false health crisis, the culprits of the New World Order, have collected hundreds of billions of euros and dollars.

This financial scam, unprecedented in the history of mankind, has come at the expense of the peoples of the world, destroying them in terms of their physical and psychological health, as well as economically and socially.

While getting rich on our backs.

Frédéric

Fortunately, this drama will end soon. Because, what lost them, was that we discovered that Covid-19 is an artificial virus, manufactured by the Institut Pasteur, in France. With all the necessary evidence.

They weren't expecting it.

We cannot recall enough what we said in the preamble:

**The Covid-19 virus being artificial,
there is no more need for the vaccine.
The Institut Pasteur just needs to stop releasing the Covid-19
to stop the pandemic**

Jean-Bernard, can you make a first conclusion?

Jean-Bernard

The New World Order criminals, and their many confident accomplices, took us for morons.

They are proud, without faith or law, and think they are gods.

They don't know their limits

I would like to conclude with a quote from Pierre Dac.

See Document 11

"The pretentious moron is the one who thinks he is smarter than those who are as stupid as him"

Document 11

A quote from Pierre DAC

"The pretentious moron is the one who thinks he is smarter than those who are as stupid as him"

Pierre Dac

« Le crétin prétentieux est celui qui se croit plus intelligent que ceux qui sont aussi bêtes que lui »

Pierre Dac
